## Summer "Owney" Event

The RPA will be joining local members of the ATA Casey Jones Railroad Study Unit at the New York Museum of Transportation, 6393 East River Road in Rush, on Sunday, July 31 for an event celebrating Owney, the railway postal service dog and promoting our club.

Four days earlier the US Postal Service will issue a stamp for the not so well known pooch. The RPA will be asking for a special cancel marking its first day of use on July 27. The common design is being offered to stamp clubs and communities across the country.

Perhaps train enthusiasts and philatelists are the only people to know Owney's tale.

This wags-to-riches tale began in 1888 when a mixed-breed puppy entered the main post office in Albany, New York and made himself at home among mail sacks awaiting loading onto nearby rail cars. The Railway Mail Service employees there unofficially adopted the stray and named him Owney.

The fastest way to move mail in those days was by train. The dog soon started riding the routes that the mail workers took as they performed their daily sorting, bundling and delivery duties around the clock on their specially built rail cars. Train accidents were unfortunately frequent and deadly back then. Owney gained a reputation of being somewhat of a lucky charm, for no train that he took ever got into a wreck!

News about the dog's whereabouts were sought after by his care-giving postal colleagues as he wandered from train to train, route to route, eventually taking him around the county. Newspaper writers also sniffed a good story when Owney came to town, often getting front page headlines featuring day-by-day accounts of his activities. Owney had reached true celebrity status.

Somewhere along the way somebody decided to commemorate Owney's visit by creating a dog tag inscribed with the date and place of his visit, placing it on his collar. The idea caught on and it wasn't long before poor Owney became weighed down by so many of them. John Wanamaker, Postmaster General at the time, solved the problem by presenting the dog with a jacket during a visit to Washington, DC. The jacket allowed the tags to be distributed more evenly around his body. Over time that

became filled as well. The final solution was to give Owney his own suitcase, carried by his railway mail worker overseer for that particular "tour," filled with his many medals, dog bowl and other travel necessities.

Perhaps Owney's most famous trip was in 1895 when he uncharacteristically "steamed" around the world from Washington state to the Orient, India, up the Nile, Gibraltar, the Azores, New York City and then back again to the Tacoma area. He was treated like, and by, royalty along the way as an unofficial ambassador of the US post office.

It's estimated that Owney traveled more than 130,000 miles before his death in 1897, far more than any postal employee would have in a lifetime. His collection of tags, medals and other trinkets numbered 1,017. Mail clerks raised funds to dog's remains prepared by a taxidermist and later presented it to the Post Office Department. Owney is on display today at the Smithsonian's National Postal Museum's atrium where he can be seen wearing his jacket along with some of his medals.

The American Philatelic Society's Chapter Activities Committee is assisting stamp collecting groups, train fans and communities across the country learn about Owney, his exploits and the importance of the railway mail service through the new stamp. Their "Owney Resource Page" contains activity ideas, informational links, a map of hundreds of locations Owney is known to have visited, and even free special postmarks that can be customized for events. ### John Nunes 1941-2011

Dr. John Nunes

Words cannot express how much I will miss John. He always gave without asking for anything in return. He was an irreplaceable asset to the hobby. John was always there to support me when I was in need of advice or needed a hug...  
*Offering our condolences to John's family & friends.*

*Part of an ad from William S. Langs appearing in Linn's Stamp News in tribute to John.*

Long time ROPEX dealer and RS Stamp Show director John Nunes passed away Sunday morning, January 16 while attending a stamp show in Toronto.

John was born in Rochester and graduated from Churchville High School in 1959, earning a BS in ceramic engineering from Alfred University in 1963 and MS and doctorate degrees in materials engineering from RPA. Most of his employment history was with General Electric at its Knolls Atomic Power Laboratory in Niskayuna, NY. He spent four years as plant manager for the Windsor Locks, CT nuclear power facility.

John was a stamp collector all his life, spending his retirement years completely immersed in his stamp business, Nunes Nook. John spent almost every weekend working regional and national stamp shows. He leaves behind his wife of 46 years, Alice; daughters Jill (Chicago, IL) and Robin (Costa Rica); nephews, nieces and a granddaughter.

Everyone who encountered John will remember his warmth, openness, and willingness to share his wealth of philatelic knowledge with all.

RS shows will now take place at the North Greece Fireman's Field Pavilion, 3666 Latta Road, just east of Manitou Road. The Sunday 2011 shows are scheduled for March 13, September 25 and November 20.
