2014

The Lighthouse Stamp Society is proud to offer the following award for exhibits at official WSP juried shows:

A Harbour Lights limited edition ceramic lighthouse figurine will be awarded for the best exhibit in any class or division with any nautical theme.

In the case of NTSS, if more than one nautical exhibit is entered, the award should be presented to the second best nautical exhibit, with the Ships on Stamps Award to go to the best nautical exhibit. If there is only one nautical exhibit the award should go to that exhibit.

The judges are urged to give the award if at all possible even if the nautical element connection is remote and the only such exhibit.

Awards can be ordered from the address above and should be sent for at least one month prior to show date.

If the award cannot be awarded please save it for the following year and DO NOT return to the Lighthouse Stamp Society.

Please send a copy of the palmares to the address above following the show.
